

## INFORMATION SHARING ON YOUTUBE

On March 25, 2016, the TMPD officially opened the channel in a video-sharing website YouTube and uploaded our PR videos and other content.

These videos have been designed to make you feel as if you were at crime scenes with our fellow officers and, while at the same time, provide you with an opportunity to easily understand a variety of TMPD police services.

Title (for general audience)

Official YouTube Channel for the TMPD

Officers in a hot pursuit of a suspect on the run (in a video for general audience)

PEOP showing what police officers are doing at a crime scene (in a video for children)

## INFORMATION SHARING ON PR VIDEO "TOKYO METROPOLITAN POLICE DEPARTMENT 24"

In preparation for the upcoming Tokyo 2020 Olympic and Paralympic Games, the TMPD has produced PR videos so that people both in Japan and abroad can understand how we protect Tokyo and its residents. In the video for the general audience, we've reconstructed and dramatized crime scenes, such as members of the Special Assault Team (SAT) suppressing terrorists, SP officers protecting VIPs, and detectives conducting a search and seizure at a boryokudan office.

There're foreign language versions, including English, Chinese, and Korean. In the video for children, PEOP explains the work of TMPD officers in plain language so that kids would understand it easily.

For general audience and spoken in Korean

For children and spoken in English

For general audience and spoken in Chinese
